

**Remediation Schedule For Former Timex Facility**  
**2215 Crisp Drive, Little Rock, Arkansas**

**AFIN: 60-00120**

**Timex Group USA, Inc.**

**April 28, 2014**

## **INTRODUCTION**

Timex has voluntarily taken responsibility for investigating and addressing the contamination associated with the former facility located at 2215 Crisp Drive in Little Rock, Arkansas (the “Site”). Timex submits this Remediation Schedule pursuant to Section 12.0 of the Remedial Action Decision Document (“RADD”) and Paragraph 6(B)(i) of the Amendment to Consent Administrative Order (“CAO”) LIS 04-206 for the Site.

Section 12.0 of the RADD and Paragraph 6(B)(i) of the Amendment to the CAO require Timex to submit a schedule of remedial activities to include submittal of a Treatment Technology Pilot Test Work Plan, a Remedial Action Work Plan, and a Groundwater Monitoring Plan, each to include a schedule for implementation.

## **SCHEDULE**

### **1. Soil Remedial Action Work Plan**

Timex will submit a Soil Remedial Action Work Plan to the Arkansas Department of Environmental Quality (“ADEQ”) by June 30, 2014. This plan will include a schedule for the implementation of the soil remedy (i.e., excavation and removal of the contaminated soil). Upon ADEQ’s approval of the plan, Timex will implement and complete the soil remedy in accordance with the schedule contained in the plan.

### **2. Groundwater Treatment Technology Pilot Test Work Plan**

Timex will submit a Groundwater Treatment Technology Pilot Test Work Plan to ADEQ by May 30, 2014. Timex will submit an application for authorization under the underground injection control (“UIC”) General Permit for the pilot test by June 30, 2014.

Timex will implement and complete the Groundwater Treatment Technology Pilot Test within 120 days of ADEQ’s approval of the plan or approval of the UIC application, whichever is later.

### **3. Groundwater Remedial Action Work Plan**

Timex will design the full-scale groundwater remedy (in situ chemical oxidation treatment of on-site shallow groundwater) and submit a Groundwater Remedial Action Work Plan to ADEQ within 120 days of the completion of the Groundwater Treatment Technology Pilot Test. The Groundwater Remedial Action Work Plan

will include a schedule for implementation of the full-scale remediation. Upon ADEQ's approval of the plan, Timex will implement and complete the groundwater remedy in accordance with the schedule contained in the plan.

#### **4. Groundwater Monitoring Plan**

Timex will submit a Groundwater Monitoring Plan to ADEQ by May 30, 2014. The plan will include a schedule for implementation of groundwater monitoring.

### **CONCLUSION**

This submittal satisfies Timex's obligation under Section 12.0 of the RADD and Paragraph 6(B)(i) of the Amendment to the CAO to submit a schedule of remedial activities.
